## **Miss Dulles In Berlin; Communists Worried**

CPYRGHT

Berlin, Nov. 11 [Reuter]—Miss Eleanor Dulles, deputy head of the State Department German economics division, arrived here today—and got the Communists worried.

The East German news agency ADN claimed her visit has nothing to do with brother John Foster, head of the State Department, but is a "secret mission" for brother Allen, chief of the Central Intelligence Agency.

### **Just Before June 17**

"It is a remarkable thing," said ADN, "that Miss Dulles's last visit was on the eve of the Fascist provocations of June 17," by which it meant the East German revolt.

This time, said ADN, Miss Dulles has been sent to help ex-Gen. Reinhard Gehlen out of a dilemma caused by the "blow-by-blow destruction of his agents' nests in East Germany."

The Communists say they have rounded up a counterespionage organization working for Gehlen,

whom they claim is connected with Allen Dulles's CIA.

Miss Dulles, here on a one-week visit to discuss economic problems with American and German officials, today met West Berlin's Lord Mayor, Walter Schreiber.
